Your course:

As well as grammar and vocabulary analysis and practice, this course integrates speaking, writing, listening and reading skills using a 'communicative approach'. The focus of the course is for you to communicate successfully with others; this means that error correction takes place at certain points in the lesson, not necessarily every time a mistake is made.

Language review and assessment:

You will complete and receive feedback on a writing task and a speaking task over the 10-week period. In addition to regular homework to consolidate your learning, you will have the opportunity to review your knowledge of the vocabulary and grammar studied on the course. Your teacher will give you more information about this on the first day of your course.

Making the most of your course:

- be active and use your English as much as possible inside and outside the classroom.
- keep your notes organised, add to them throughout the course and review them regularly.
- try always to do your homework.
